

Connect eNewsletter October 2008 Edition

The HealthSpring Medicare Advantage Plan

The HealthSpring Medicare Advantage Plan is a Medicare Managed Care Plan, new to our service area, that will give Medicare beneficiaries an additional choice for their quality healthcare coverage. This plan, unlike some others, has been evaluated by HFNI, and it is now one of our contracted plans. CMS has approved for HealthSpring to expand their services into the Northwest Florida area. HealthSpring is one of the largest Medicare Advantage Coordinated Care Plans offering extensive, affordable health care coverage for people on Medicare. To read the full story [Click here](#).

e-INFOsource – New system implementation

MED3000 is undertaking a new system implementation for their client Health First Network. The new system is expected to move into production October 1, 2008. Processing for claims prior to October 1st will be processed in the existing system and claims for service dates beyond the 1st of October will be processed in the new system. With this implementation, the web portal Infosource will undergo a change. To learn more [Click here](#).

Healthy Kids Product awarded to Vista Healthplan (Coventry)

Effective October 1, 2008, the Healthy Kids product for both Escambia and Santa Rosa Counties have been awarded to Vista Health Plan (Coventry). Health First Network will be responsible for providing professional services for this product in both counties. For more information [Click here](#).

Child Health Check-ups

Well Child visits are the hallmark of preventative care for infants and children. They provide an excellent opportunity for prevention or early intervention of physical, developmental and behavioral problems. [Click here](#) to read about the importance of child health check-ups and [Click here](#) for a list of child health check-up codes.
